

The Industry Leader

The Best in Permanent Pavement Repair

UPM® is the Benchmark Cold Mix Providers Try to Emulate

While many cold mix suppliers falsely refer to their products as being comparable to UPM®, none have been able to match the high-performance of our proprietary additives.

- › UPM® is specified on most major bid requests.
- › The federal government named UPM® as its control material in the [Strategic Highway Research Program](#) (SHRP-H-3832 and SHRP-MUFR-95-004) study.

We Define Quality as Guaranteed Performance

When too much emphasis is placed on producing the cheapest cold mix, performance suffers.

Our customers see the value and savings in higher quality material that works permanently versus buying the cheapest, then having to spend more to repair the same holes over and over.

How Does Your Current Cold Mix Stand up to UPM®?

- › The most tested material by government organizations world-wide
- › Ongoing support for the life of material
- › Reduces total repair costs
- › Region-specific formulations that ensure UPM® works
- › Nationwide field support
- › On-site training in best repair practices
- › Unmatched quality control in every mix
- › Warranty—guaranteed high performance

UPM® can reduce your total repair costs by delivering more value in a material that lasts. Call us today!

UPM® is a product of  **Unique**

High-Performance by Design

It Starts with Quality Rock

All raw materials we use in making UPM® are selected to meet our stringent quality standards.

Lab Testing Mix Formulation

The UNIQUE lab considers specific aggregate characteristics and regional elements to design a customized formulation.

The result is a region-specific mix that works every time.

Mix is Tested Before you Use it

Before a mix can be certified as UPM®, it must undergo rigorous testing in our lab as well as in the field.

UNIQUE stands behind every UPM® mix, every time.

Once and Done Permanent Pavement Repair

The proprietary additives and stringent quality control procedures for UPM® ensure that you get a pavement repair solution that will outlast the surrounding pavement. We guarantee it!

UPM® high-performance cold mix has been used to permanently repair more potholes than any cold mix or cold patch in the industry. Use it to repair asphalt and concrete pavement for areas such as:

ROADS

BRIDGES

DRIVEWAYS

UTILITY CUTS

HIGHWAYS

RAILROAD CROSSINGS

PARKING LOTS

CART PATHS
